

Process Learning Centers Presents: Video Conferencing at the Speed of Business – *The Future is NOW!*

Business is changing exponentially and the future is here today! Video conferencing is changing the way we do business and the implications are profound. This informative seminar features leaders from the non-profit, medical, business and education worlds who regularly use leading-edge technologies to save money and collaborate.

The primary focus of the seminar will be video conferencing and the applications of this time-saving and resource-efficient technology. Other technologies will also be explored and discussed. The will be an "open-forum" format and attendees will be encouraged to participate in the discussion. The seminar will be recorded and a link to the video stream
